## TERMS OF SALE

1. This is an unrestricted auction and mail bid sale conducted by Robert L. Hughes Enterprises, Inc. (RLHE).
2. All material shall be sold to the highest bidder. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, the auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" OR "BUY" BIDS WILL BE ACCEPTED.
3. Auction sales are strictly for cash in U.S. funds and lots must be paid for promptly. Bids cannot be accepted from those under 18 years of age without a parent's written consent.
4. Floor bidders who have not established credit with RLHE must furnish satisfactory credit references or deposit 25% of their total bids for that session before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded after that session.
5. Bids must be for an entire lot. No lots will be broken up. Lots will be sold in their numbered sequence unless the auctioneer directs otherwise.
6. All items offered in this catalogue are guaranteed to be genuine and as described. Claims to the contrary must be made within (7) days after receipt of material. No lot may be returned without prior written consent.
7. This is not an approval sale. Bidders are expected to keep, and promptly pay for all lots for which they are the highest bidder as determined by the auctioneer. Floor bidders are encouraged to carefully examine all lots in which they are interested since NO LOTS PURCHASED BY FLOOR BUYERS MAY BE RETURNED. No lots may be returned after August 1, 1980 except for reasons of authenticity.
8. No commission is charged for executing your mail bids, and in all cases, the successful mail bidder will be awarded the lot at a nominal advance over the next highest mail or floor bid. Postage, insurance, and sales tax if required by law to be collected, will be added to the invoice on any lots that are shipped to successful bidders. If a mail bidder has not established credit with RLHE, satisfactory credit references must be provided or the mail bidder must furnish 25% of his total bids for the sale before his bids can be accepted.
9. When identical mail bids are received by the auctioneer for each session, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid, and a floor bidder must bid higher than the highest mail bid to be awarded any lot. The auctioneer reserves the right to refuse any bids at his sole discretion.
10. The auctioneer reserves the right to open the lot at a reasonable price and to withdraw any lot.
11. Title to any lot remains with RLHE until the lot is paid for in full. RLHE reserves the right to require payment in full before delivering any lot to the successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his possession. Risk of loss is on the buyer.
12. All lots delivered in the state of California are subject to local sales tax. Individuals purchasing lots for resale must be prepared to submit an exemption certificate signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate or number, or be subject to the local tax.
13. The auctioneer cannot be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing and able to pay.
14. All photographs in this catalogue are of the actual coins being sold.
15. Due to the constantly changing value of rare coins, we have not included estimates. In today's strong numismatic market, we recommend that you bid generously. . .keeping in mind that we will obtain lots for you at under your maximum bids whenever possible. *If you need guidance as to "ballpark" values of any lots, please call and we will be happy to be of assistance.*
16. You may use VISA/BankAmericard or Master Charge, but you must add 1½% to cover our extra costs.

"Grading coins is subjective in nature, and no two people will always grade the same coin alike. To be prudent, you should rely on your examination of each coin and not on the grade as represented by Robert L. Hughes Enterprises or any other dealer. Please note that grading standards have varied over given periods of time, depending on changing market conditions, and will probably do so in the future."

## How Does Our Auction Work?

First, we tabulate the bids received by mail. The "opening bid" for each lot is announced at the sale at 5% above the next to the highest bid received.

If there is only a single mail bid, the opening bid would be lower by about 25%; if there is no mail bid on a lot, the auctioneer would look for an opening bid from the floor.

In the event that no one bids from the floor, the lot is "sold to the book", that is, to the person sending in the highest mail bid. If there is floor bidding, it advances in approximately 5% increments. The floor bidding continues "against the book" unless the highest mail bid is exceeded on the floor; then the highest floor bidder is awarded the lot.

## Instructions for Bidding by Mail

In addition to submitting "simple" bids indicating the maximum you would spend on each lot of interest, you may choose to give special instructions. You may want to buy only one of several lots, or to limit your spending to a set amount. Or you may wish to authorize a 10% or 20% increase above your bid if it will insure that you win the lot. Just indicate these special instructions on your bid sheet. . . but please don't make them too complicated. Our auction staff will exercise your regular and special bidding instructions just as you would if you were to personally attend the sale.

Regular and Special Bidding Examples follow:

LOT	BID
202	\$ 1010
204	1300
381	117
390	1252

You are authorized to increase my bids up to ☐ 10% or ☐ 20% if necessary to obtain the lots.

This way a floor bidder could not "steal" a bid from you by submitting only a single bid! If there is no floor bidding you stand to acquire one or more lots at or below your indicated bids.

## The Great '80 Sale

### Superb Washlady 1879 Dollar

143. 1879 J-1604 (R-6) PRF-65, a superb gem just beginning to lightly tone. The famous Washlady dollar struck in copper. The dime and quarter counterparts (Lot 63 and Lot 81) are being offered earlier in the

sale. Much nicer than Lot 1054 at the last Garrett sale which realized \$30,000. A lovely example which should show very spirited bidding.

### Superb 1879 Liberty Head

144. 1879 J-1606 (R-7) PRF-65, lovely toning. Struck in copper. The design by William Barber of the head of Liberty with hair gathered in a coil and held by a ribbon tied behind; on coronet is "LIBERTY", incased; behind this are two heads of wheat with cotton leaves and bolls. The reverse has the eagle with raised wings

holding an olive branch with six leaves in the right talon and three long, slender arrows which pass behind the wing in the left. Very similar to Lot 1055 of the Garrett sale which sold for \$30,000 which was the same design struck in silver.

### The Famous 1879 "Schoolgirl" Pattern Dollar

145. 1879 J-1609 (R-7) PRF-63, struck in copper. We are proud to offer one of the highlights of the entire sale. The "Schoolgirl" dollar is one of the most desirable of all patterns. The Garrett piece sold recently struck in silver realized \$105,000. It will be interesting to see what this beauty brings.

The obverse features a young girl of pleasing countenance with flowing tresses. The reverse shows a perched eagle which was adapted from an 1877 half dollar design. This is a great opportunity to own this very desirable specimen.
